

## CLAMP PAD RECOVERING

Clamp pads causing you lost productivity? If so, let Sioux Rubber & Urethane solve your problem by replacing the old rubber covering. This procedure is a very cost effective option compared to the cost of a new set of clamp pads. Our experienced crew can remove the old worn rubber covering from the existing metal surface and vulcanize on a new rubber covering. This way you know that the bolt holes in the clamp pads will realign perfectly with your machine because it came off that machine. Surface textures available include ribbed, diamond design, and cross hatching to meet all your clamping needs. We can recover all types of clamps pads, flat, curved, and custom pads in all sizes large and small with rubber thickness at 1/8" and up. Call our experienced staff at 1-800-443-9469 for a price quote and get your clamp pads performing like new again.

Sioux Rubber & Urethane is an **ISO 9001** certified custom operation, providing application and manufacturing services in large and small quantities for all types of customers ranging from OEM's to small town repair shops.

Contact Sioux Rubber & Urethane if you have any questions or would like a price quote.
