

PROTECT IT WITH RUBBER®

CUSTOM RUBBER PRODUCTS

Sioux Rubber & Urethane specializes in custom work. We apply rubber to existing parts or build new per your drawings and specifications. Rubber is normally applied for impact or abrasion control, however, it can be applied to control noise, corrosion or to improve gripping ability.

CUSTOM RUBBER COATINGS AND LINING APPLICATIONS:

- Pump housings - various chemical plants, slurry pumps, dredge pumps
- Impellers - dredge pumps
- Fan housings - for chemical plants or systems with abrasive atmospheres
- Chutes - sand chutes, grain spouts, transitions
- Hoppers - candy (noise control), sand, gravel, concrete
- Impact pads - various sizes, shapes and thicknesses
- Fork lift forks - to protect coated pipes from nicks, and long forks for marinas using forklifts to pick up boats
- Polishing disks - used for glass polishing (up to 49" diameter)
- Rubber tampers for asphalt machinery
- Fork lift pads - box and paper roll carriers
- Gaskets - for special machinery, largest to date: 8' x 20'
