

PROTECT IT WITH RUBBER®

RUBBER IMPACT BARS

Installed at transfer points, Sioux Rubber & Urethane impact bars are made of premium impact resistant rubber and high quality UHMW to absorb the energy of falling material and prevent damage to your conveyor belt and keep the product where it should be - on the belt. These quality bars stand up to heavy service demands. Because downtime is expensive - Sioux Rubber & Urethane bars give you longer service for better life-cycle economy.

SR REPLACEMENT IMPACT BARS

Standard Impact Bar Specifications:

- Bar dimensions - 3" height, 4" width, up to 72" long
- 3/8" super slick UHMW top
- Coefficient of friction: 0.5
