

PROTECT IT WITH RUBBER™

URETHANE LINERS AND COATINGS

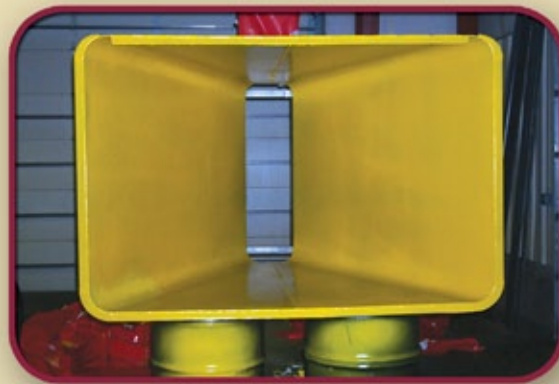

Sioux Rubber & Urethane can directly bond urethane liners to existing equipment such as a pump housings, fan housings, cyclones or a semi-trailer or manufacture a bolt-on or drop-in liner for your specific application. Several types of urethane are available in a variety of thicknesses to make the liner or coating perform at an optimum level.

SPRAYABLE URETHANE COATINGS:

- Provide superior protection against friction, abrasion, corrosion, chemicals and weather
- Permanently bonded to surface and has a broad working temperature range
- Are available in thicknesses from .004" to over ½"
- Can be applied to steel, aluminum, rubber, urethane, concrete, wood or fiberglass
- Used for pumps, chutes, hoppers, dump truck beds, railcars, snow plows, storage tanks, asphalt trucks and trailers, and many other items
- Can be formulated from very soft and pliable to extremely hard and smooth

BOLT-ON OR DROP-IN LINERS:

- Steel backing available
- Several fastening options; bolts, rivets, screws or tack weld
- Custom shapes and sizes to fit most applications
- Hardness available from 60 shore A to 65 shore D
